

This package contains models of Bee Home Environment.

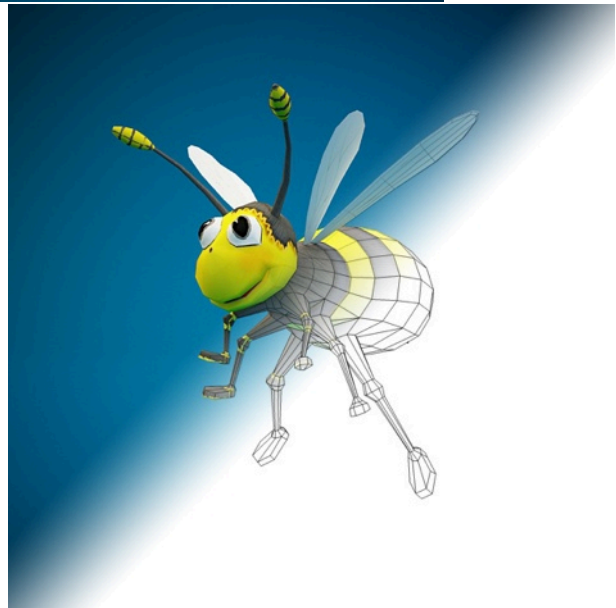

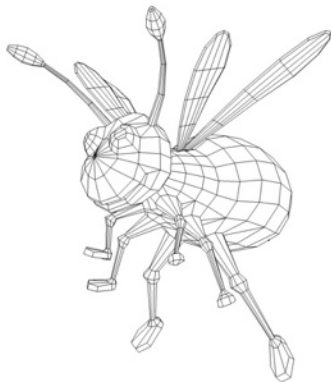

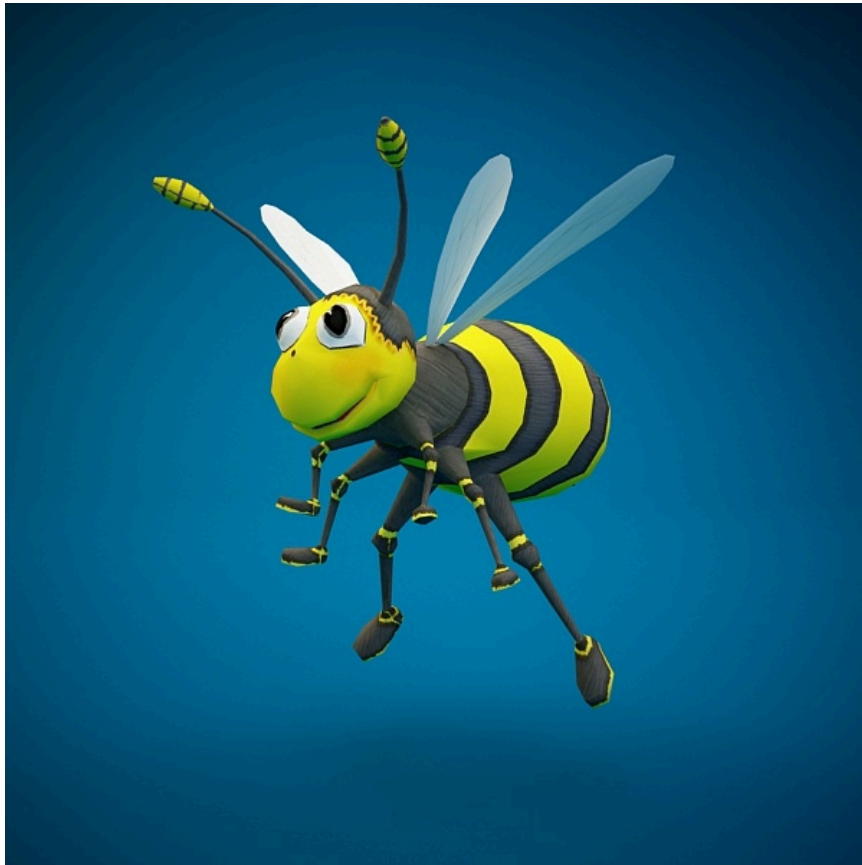

Note that the models are designed with “**Texture Sharing**” (there are some texture atlases) and **mostly Low-Poly** in order to use in mobile platform. If you are interested in High-Poly version, please contact us.

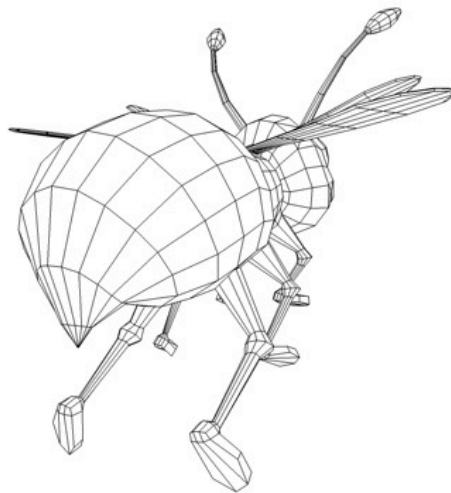

This package contains these models;

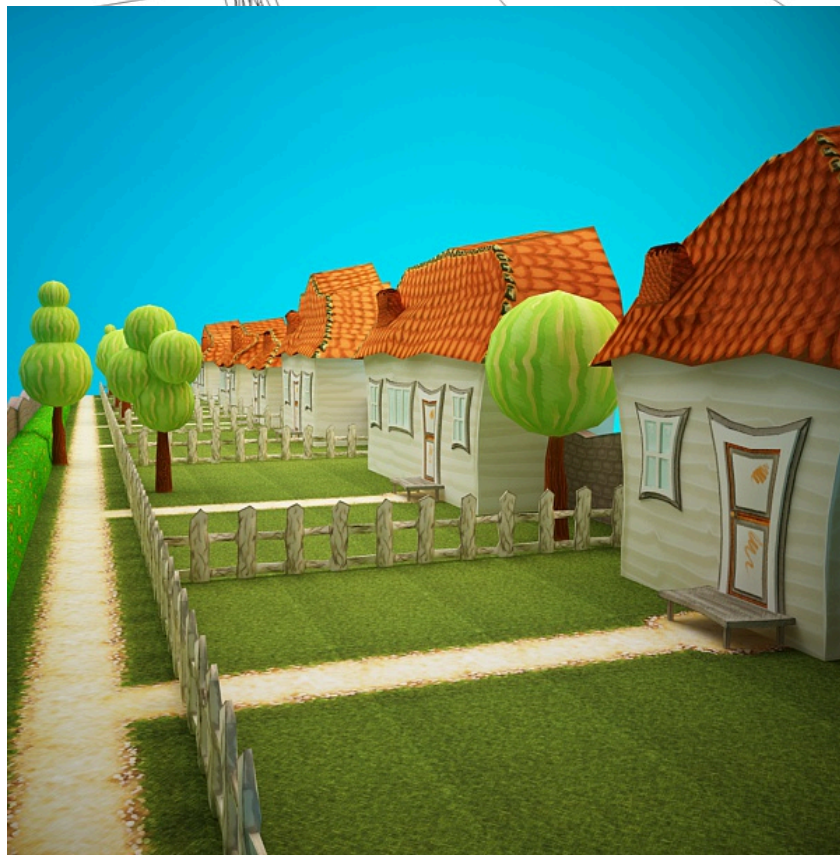

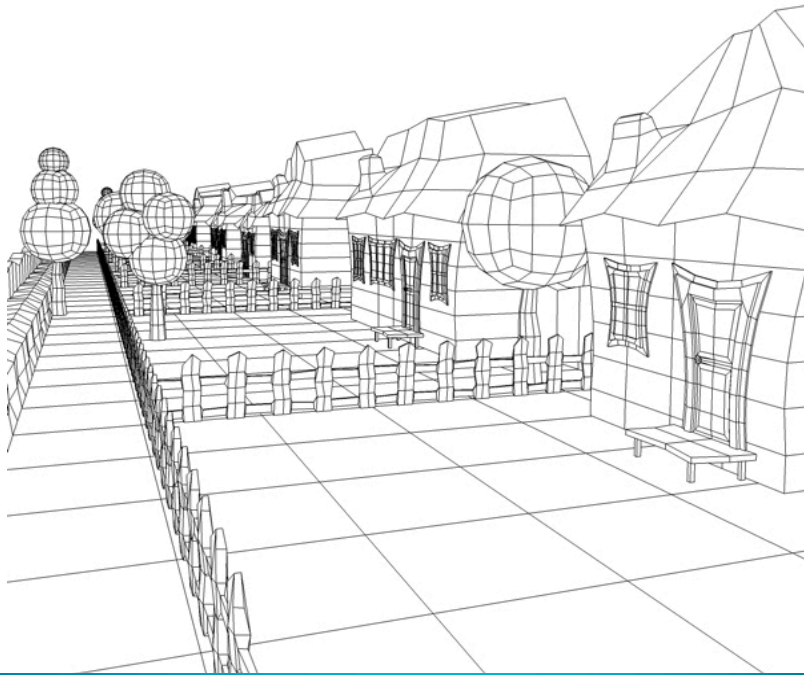

- 1 Bee with joint (IK) and body and wing animation. There are two zip files inside the package contains the same files. One of them contains Cinema4D file while the other is Unity Export file containing same Cinema4D file. The reason of this, if you don't have Cinema4D there may some problem occur on seeing the model in scene.
- 1 Bee without joint
- 5 Flowers. Note that each objects death versions are also included,
- 6 Home Environments
 - 6 Different Home Design : You can change for your purpose, window and doors are separate.(Home Body, Window, Door),
 - 3 Trees,
 - 1 Post Box,
 - Garden Fence, Street, Lamp, BBQ,
 - Chair with Table, Chair with Umbrella,
 - Clothes.

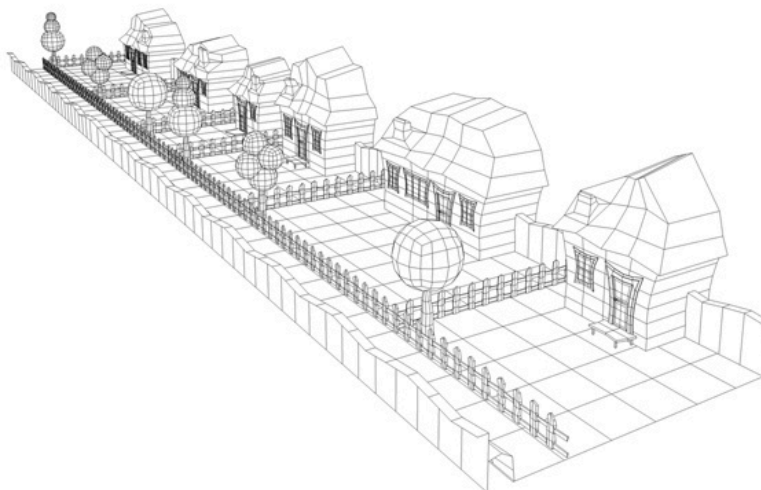

All models are given below;
